

Tenuta Rossetti

OLIO BIOLOGICO DI CALABRIA

**TENUTA
ROSSETTI**

QUALITÀ E DELIVERY: WE ARE THE „TENUTA ROSSETTI”

Our product is obtained exclusively from olives by mechanical means without the addition of chemical additives. These additives alter the natural taste and they are harmful to the health of consumers.

The excellence of a food product is given not only by its taste but also by its health effects on People: we work to provide you with a healthy oil through an accurate delivery service.

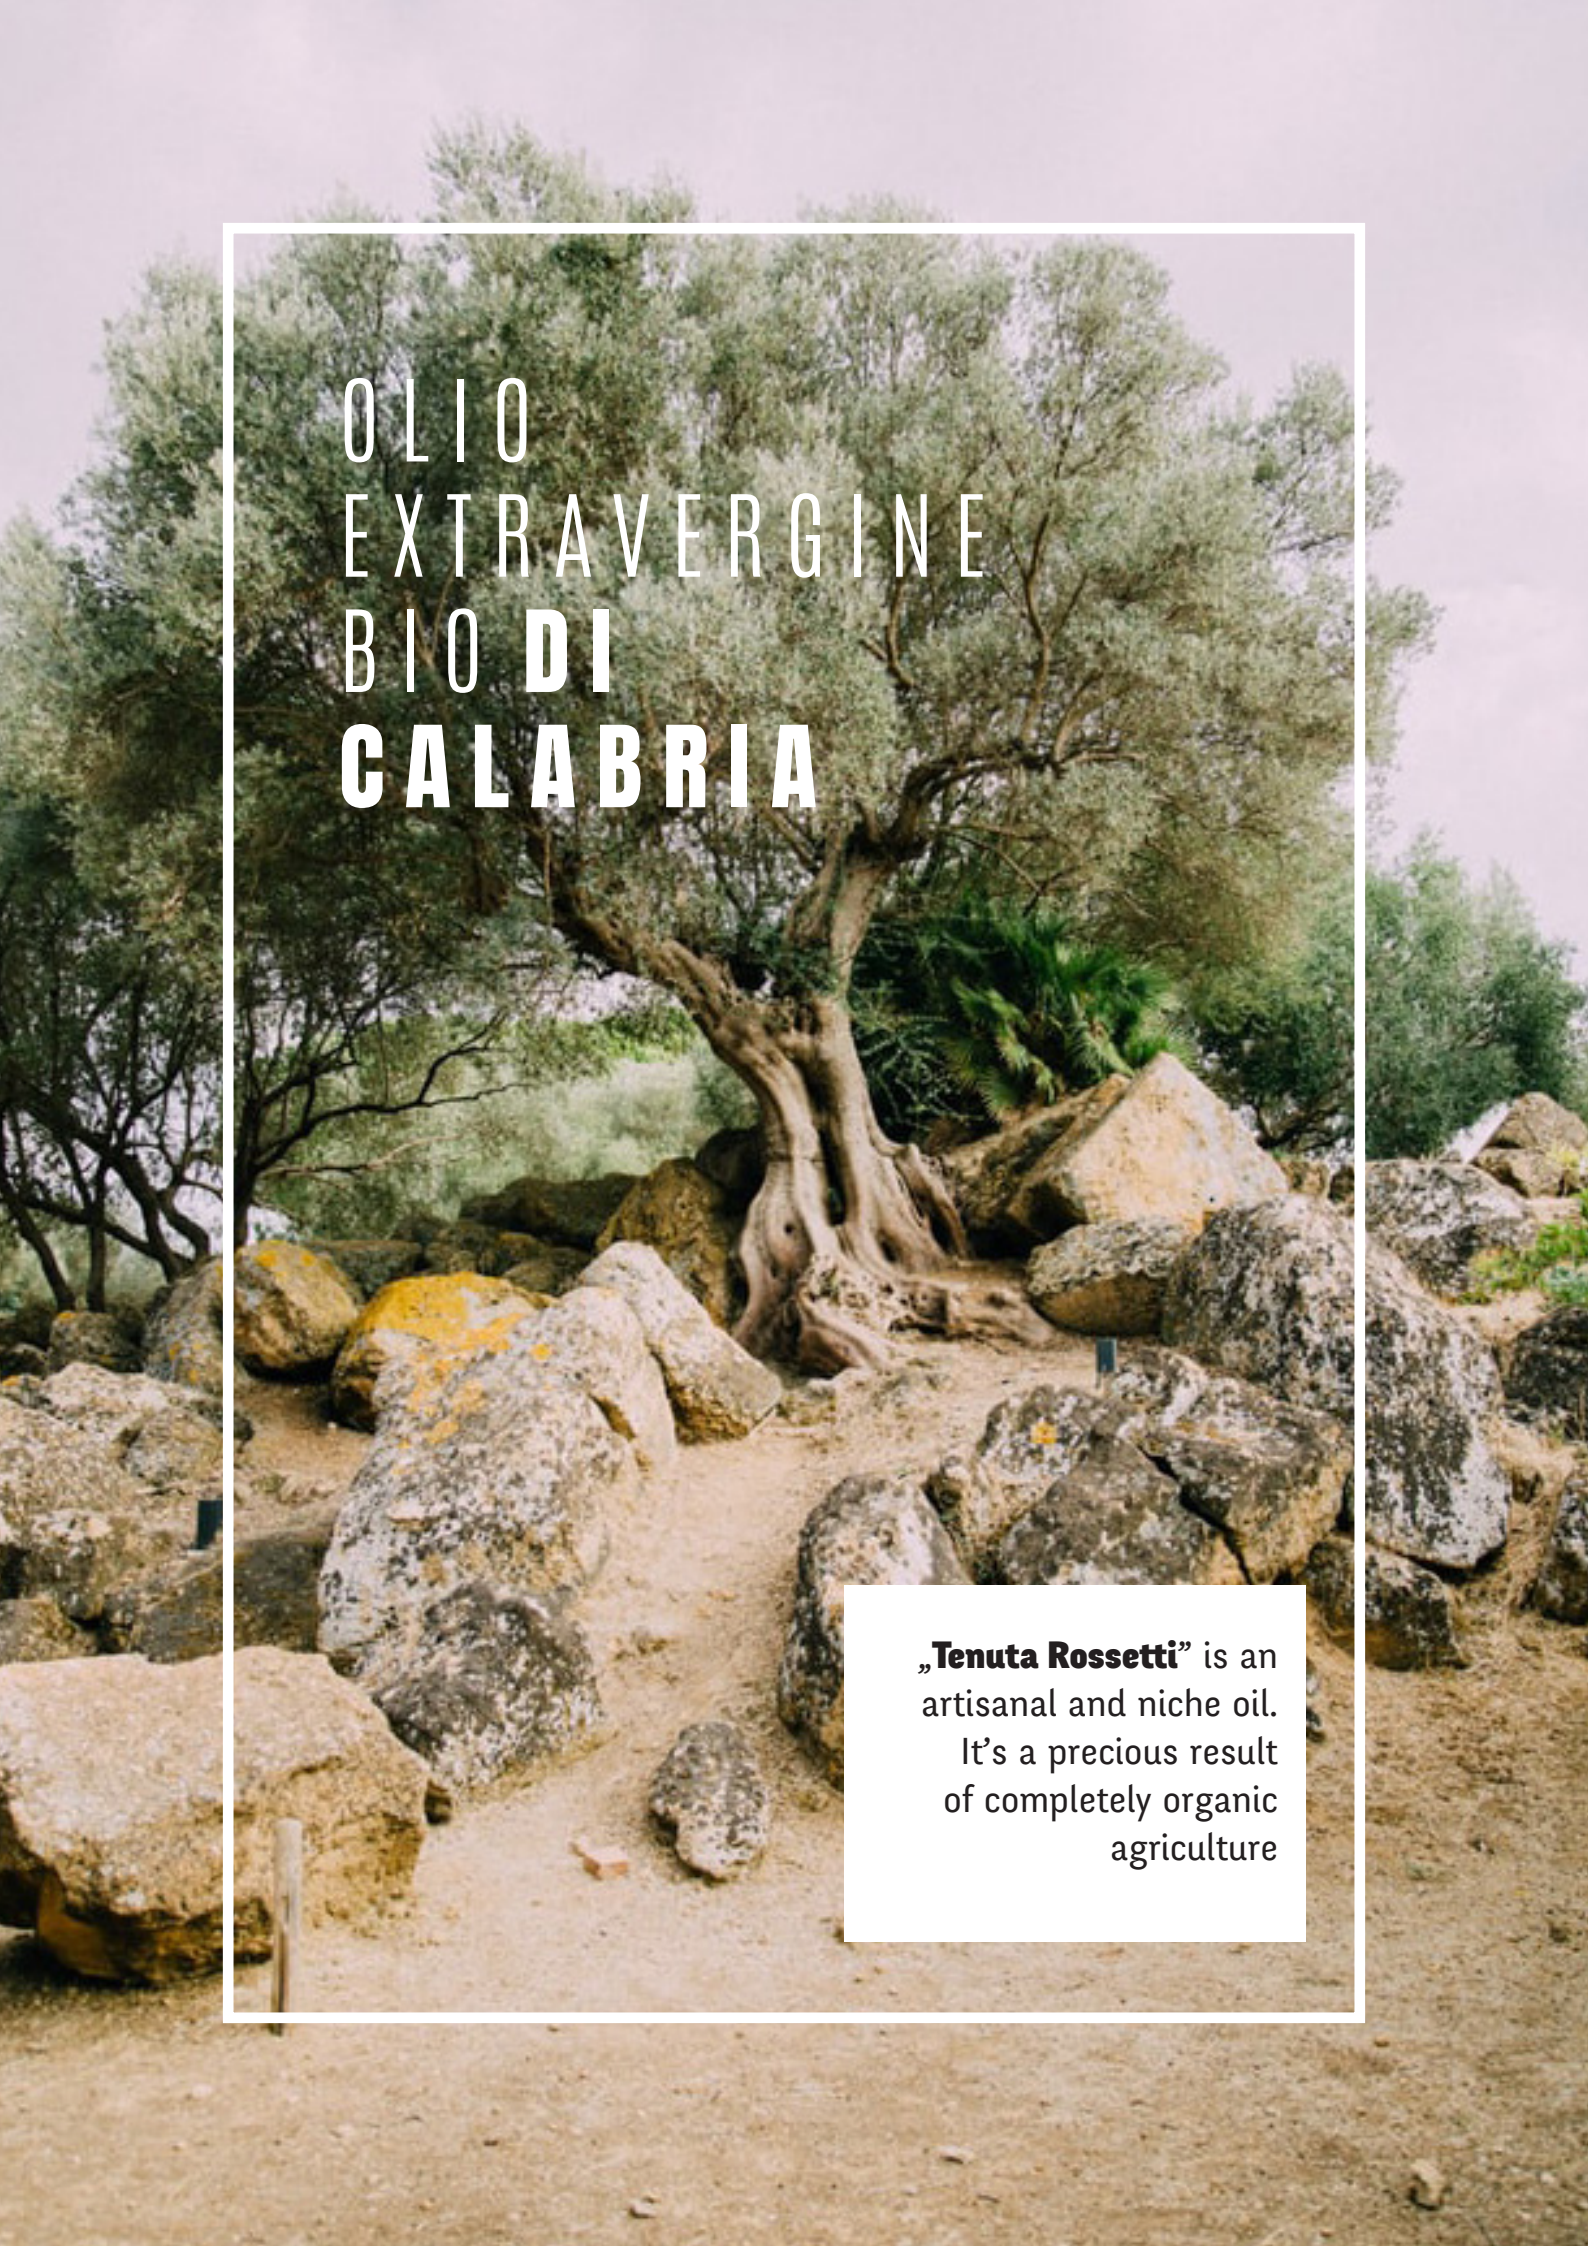

A 25-YEAR STORY

Giovanni Rossetti has cultivated a passion for oil from an early age. He led the family oil mill with commitment in addition to university studies. In 1995, Giovanni decided to create a biological olive grove. Today this biological olive grove includes a cultivation of about 24 hectares of certified organic olive trees (over 9,000). This is the Tenuta Rossetti's history. This solid family-run company has grown up and it places a high quality product with very high purity on the market. This result has been achieved with the help of his sons Mario and Pier Giorgio and with the dedication, the commitment and the diligent work of a highly specialized staff.

THE TERRITORY

In Italy, the extra virgin olive oil has always been famous for its quality and its quantity. Calabria is one of the regions with the highest production rate. Tenuta Rossetti includes 24 hectares of certified organic olive trees in the Boccafolle district of Mottafollone (Cosenza). It's a territory with a high olive-growing vocation. The company complies with the requirements of the **"Olio di Calabria" IGP Regulations**. The analyzes on the oil confirm it as a **100% natural organic product**.

OLIO EXTRAVERGINE BIO DI CALABRIA

„**Tenuta Rossetti**” is an
artisanal and niche oil.
It's a precious result
of completely organic
agriculture

OUR WORK

Each step that involves the production of Tenuta Rossetti oil enhances and maintains the specific characteristics of the olive: This care is needed to preserve it in all its high organoleptic and nutritional qualities.

M I S S I O N

We want to produce an oil of excellence which can be tasty and healthy for our Customers. Furthermore, our efficient delivery service conveniently allows our customers to receive the format chosen in the destination most congenial to them.

V I S I O N

We want to export and supply customers with a healthy product absolutely without herbicides, pesticides and any chemical substance. We want to grow up more and more in the slow food and delivery sector.
